

SUPPORT YOUR LOCAL FIRST RESPONDERS

All Elbert County residents,

If you are new to Elbert County or are an Elbert County resident using cell phones, your emergency medical/law enforcement First Responders have a request.

Please check your recent cell phone bill to see if you are being billed at your Elbert County address. If not, please ask your cell phone carrier to change the address to your current Elbert County address.

Our Elbert County emergency medical/law enforcement First Responders rely on the 911 surcharge on cell phones to keep Elbert County emergency communications funded and working. But, if you don't change your cell phone billing address, that surcharge money goes to some other County. So, please help your local First Responders by updating and changing your cell phone billing address.

Thanks much for your assistance.

Elbert County Communications Authority (In an emergency always call 911)
